**1. Upgrades In Rate Plans**

Services rated under the month-to-month plan or an existing fixed period service rate plan may be upgraded to a new fixed period service rate plan at any time the customer chooses without incurring nonrecurring or discontinuance charges. Where portions of a service are rated under the month-to-month plan (e.g., Multiplexer, Transport Channel) and are connected to fixed period rated service, the customer may upgrade these rate elements at the time the service is upgraded. Additionally, the new fixed period service rate plan must meet or exceed the fixed period service rate plan being upgraded. For example, a rate element with a 36 month fixed period service may be upgraded to a new 36 month, or longer, fixed period service. The monthly rates will be those that are in effect at the time the service is upgraded.

New minimum service period applies to all Digital Data Service rate elements that are upgraded in the following manner:

- If the service being upgraded has been in place for more than 12 months, minimum period provisions will not apply, or
- If the service being upgraded has been in place for less than 12 months, the time in service will be applied against the minimum period term.

(C)

Should the customer choose to upgrade either a portion of or the entire service under the fixed period service rate plan to a higher capacity (e.g., 2.4 kbps to DS1), discontinuance charges will not apply, provided all the following conditions are met:

- The service (e.g., DS1) is provided by the Company,
- The customer's request for disconnect of the existing service and the request for new connect of the new DS1 Service are received at the same time and must specifically reference the application of upgrade in capacity,
- The customer's request for the disconnect of the existing service must reference the request of the new connect order,
- The new service is provided between the same customer locations as the discontinued services,
- The new service has a total voice equivalent channel capacity greater than the total voice equivalent channel capacity of the service being discontinued and
- The new fixed period service rate plan meets or exceeds the fixed period service rate plan being discontinued.

(T)

New minimum service period applies to all upgrades. Nonrecurring charges will not apply to the upgraded lower speed services placed onto the new higher speed service if requested at the same time as the upgrade request.

- [1] Customers with the VTPP in service prior to the effective date of this Tariff, May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.4.17, following, in lieu of Upgrades in Capacity. This offer is valid until either the expiration date of their existing term or until May 29, 1998 for a 36 month term and May 29, 2000 for a 60 month term, whichever comes first. New minimum service period applies to all upgrades. Nonrecurring charges for an equivalent channel capacity of the existing services being upgraded to the higher speed service will not be assessed. For example, 30 DS1 Services are being upgraded to DS3 Service. A capacity of 3 is installed at the customer's request. A total of 2 Per DS3 rate elements will be installed without nonrecurring charges being assessed as it will require 2 Per DS3 rate elements to provide the equivalent channel capacity of the existing services. Nonrecurring charges will apply for capacity that exceeds the existing equivalent channel capacity. Nonrecurring charges will not apply to the upgraded lower speed services placed on the higher speed service if requested at the same time as the upgrade request.

**D.1. (Cont'd)**

Should the customer choose to discontinue fixed period service after the minimum service period but before the completion of the fixed period service, discontinuance charges will apply. Discontinuance charges equal to fifteen percent for DS1 Service and fifty percent for Digital Data Service of the total monthly rates for the remaining portion of the fixed period service will apply. For example, a customer has a DS1 Service which it chooses to discontinue after 33 months into a 60-month fixed period service. The discontinuance charges would be 0.15 times 27 months times the monthly rates for that service.

Should the customer choose to discontinue a portion of fixed period service without an upgrade in capacity, discontinuance charges will apply only to the portion of the service being discontinued. For example, a customer has service composed of a channel termination, ten miles of transport channels and a multiplexer. The customer disconnects the channel termination and connects a new channel termination at a different serving wire center via a central office connecting channel. The transport channel is decreased to five miles. The multiplexer remains at the same point of termination. Discontinuance charges apply to the channel termination. Discontinuance charges will also apply to the proportional reduction in mileage times the discontinuance charge for the transport channel rate element. All associated nonrecurring charges will apply for the new service.

Discontinuance charges do not apply to fixed period services purchased by local, State or Federal government entities (or to customers who have purchased services solely for resale to local, State or Federal government entities) when they are discontinued prior to the completion of the fixed period service only when all of the following conditions are met:
  - The service(s) purchased by the local, State or Federal government entity or by customers that have purchased services for resale to local, State or Federal government entities are utilized solely for provision of services for that local, State or Federal government entity,
  - Funding for the fixed period service ordered by the authorized local, State or Federal government entity is included in the budget request for each fiscal period appropriation sufficient to cover the authorized local, State or Federal government entity's obligations under the fixed period service for that fiscal period,
  - Nonappropriation may not be used as a means of terminating the service to acquire a functionally similar product or service,
  - The local, State or Federal government entity ordered the fixed period service under the good faith belief that moneys in amounts sufficient to discharge its obligations could and would lawfully be appropriated and be made available for this purpose and,

- The local, State or Federal government entity or the customer who ordered the service on their behalf, must provide the Telephone Company notarized documents agreed upon by both the Telephone Company and the customer, showing that the entity is allotted insufficient funds for the remainder of the then current fiscal period (or for a succeeding fiscal period) by appropriation, appropriation limitation or grant to continue payments under the fixed period service and has no other funding source lawfully available to it for such purpose. The fixed period service may be terminated by giving the Telephone Company not less than thirty (30) days written notice. (Should the customer receive funding for the canceled service prior to physical disconnect of service, the customer may cancel the disconnect order per Section 5.) Upon termination, the local, State or Federal government entity or the customer who ordered the service on their behalf, shall pay all applicable rates and nonrecurring charges of the fixed period service incurred through the date of termination and through the end of the then current fiscal period to the extent of lawfully available funds.

**3. Fresh Look**

Customers with 36 or 60 month Fixed Period Service Rate Plans for DS1 Service entered into on or before September 17, 1992 will be allowed to terminate the service using an alternate methodology to calculate the discontinuance charge (USOC: TUA). The right to end a DS1 Service under a 36 or 60 month DS1 Variable Term Pricing Plan at a specific Telephone Company central office will begin the date the first Expanded Interconnection-Collocation Service channel termination is provisioned in that central office and will continue until the fixed period service pricing plan expires. The Telephone Company will calculate the Discontinuance of Service charges utilizing both the Fresh Look methodology and the existing methodology and will assess the customer the lower of the two charges. A list of Central Offices available for Fresh Look is set forth in 7.7, following.

**7. PRIVATE LINE TRANSPORT SERVICE**

**7.4 RATE REGULATIONS**

**7.4.10 VARIABLE TERM PRICING PLAN**

**D.3. (Cont'd)**

If a customer chooses to terminate a DS1 Service under a 36 or 60 month Fixed Period Service Rate Plan within this period, the termination charges will be as follows. Notwithstanding any termination charges provided for in this tariff, the Telephone Company will charge the difference between the amount the customer has already paid and any additional charges that the customer would have paid for service if the customer had taken a shorter Fixed Period Service Rate Plan corresponding to the term actually used, plus interest at the rate utilized by the Internal Revenue Service for tax refunds.

For example, consider a customer who purchased a DS1 from the Telephone Company for a 60 month term at \$100.00 per month. After 3 years of the fixed period service, an Expanded Interconnection-Collocation channel termination is provisioned in the customer's central office and the customer chooses to terminate the DS1 Service from the Telephone Company. The termination charge is calculated as follows:

The customer has paid \$3,600. ( $\$100 \times 36$  months) and the customer would have paid \$3,960 ( $\$110 \times 36$  months) if the customer had taken the Fixed Period Service Rate Plan actually used. In this case, the termination liability will be limited to the difference between what the customer would have paid under the shorter term ( $\$110 \times 36$  months = \$3,960) and what the customer actually paid ( $\$100 \times 36$  months = \$3,600). Thus, the Telephone Company will charge the customer \$360.00 ( $\$3,960 - \$3,600 = \$360$ ), plus appropriate interest. When the actual service period does not precisely coincide with an existing service term, the charges for the service used are calculated at the rates applicable at the time the service term began, for the longest term commitment that the customer would have completed. The charge for the period beyond that term is calculated pro rata at the rates applicable to the completed term.

Nonrecurring charges for reconfiguration of the service will be assessed in accordance with 7.4.1 and 7.4.5, preceding, as applicable.

#### 7.4.11 DS3 SERVICE PRICING PLAN

(T)

DS3 Service Capacity Channel Terminations must be initially ordered under a DS3 Service Pricing Plan[1,2] with a fixed period of 12, 24, 36, 60 or 120 months. The optional rate plans allow the Private Line Transport Service customer to integrate DS3 services into their networks with the assurance of no Company-initiated increases in rates during the fixed period. A month-to-month option is available for DS3 Service Capacity Channel Terminations only after the customer completes the initial Fixed Period Service Rate Plan.

(T)

(T)

Existing DS3 Service Capacity Channel Terminations currently under month-to-month and in service prior to July 26, 1996 will retain the one month minimum period. All new DS3 Service Capacity Channel Terminations installed after July 26, 1996 will have a twelve month minimum period.

For Electrical and Optical Interface Capacity Channel Terminations larger than one DS3, the Capacity Channel Termination must be ordered before an associated Per DS3 Channel Termination can be ordered. In addition, the Capacity Channel Termination can not be disconnected until all of the Per DS3 Channel Terminations are disconnected. For DS3 Radio Interface, the Capacity Channel Termination includes the number of DS3 channel terminations associated with the capacity size ordered.

After the effective date of this Tariff, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the DS3 Service Pricing Plan.

7.4 RATE REGULATIONS

7.4.11 DS3 SERVICE PRICING PLAN (Cont'd)

A. Fixed Period Service Rate Plans

Customers who subscribe to DS3 Service for a 12, 24, 36, 60 or 120 month fixed period service rate plan must specify the length of the fixed period service at the time the service is ordered. The minimum service period for fixed period service is twelve months.

The DS3 rate elements may be ordered individually and as either month-to-month (for Capacity Channel Terminations, the initial optional rate plan term must be satisfied before it can convert to month-to-month) or any optional rate plan. For example, the customer may order the Capacity Channel Termination under the 120 month fixed period service plan, the Per DS3 Channel Termination and Transport Channel under the 60 month fixed period service plan and the multiplexing on a month-to-month basis.

For customers who subscribe to fixed period service of 12, 24, 36, 60 or 120 months, the monthly rates for the entire fixed period will be frozen from Company-initiated increases, at the rates in effect for the fixed period on the service date. At the end of the fixed period, the customer may convert to month-to-month or subscribe to a new fixed period service. The monthly rates will be adjusted to those in effect for the new fixed period service. Should the customer not make a choice by the end of the fixed period, the rates will automatically revert to the month-to-month option.

If a rate decrease occurs during the term of an existing fixed period service rate plan, the reduced rates will automatically be applied to the time remaining in the service period.

**1. Upgrades in Rate Plans**

(T-x)

Services rated under the month-to-month plan or an existing fixed period service rate plan may be upgraded to a new fixed period service rate plan at any time the customer chooses without incurring nonrecurring or discontinuance charges.

Customers served under a fixed period service rate plan may upgrade one or all of the DS3 rate elements to a new fixed period service rate plan without incurring nonrecurring or discontinuance charges. This upgrade will be allowed provided the channel interface and the customer designated premises remain the same. Additionally, the new fixed period service rate plan must meet or exceed the fixed period service rate plan being upgraded. For example, a rate element with a 36 month fixed period service may be upgraded to a new 36 month, or longer, fixed period service. The monthly rates will be those that are in effect at the time the service is upgraded.

New minimum service period applies to all DS3 rate elements that are upgraded in the following manner:

- If the service being upgraded has been in place for more than 12 months, minimum period provisions will not apply, or
- If the service being upgraded has been in place for less than 12 months, the time in service will be applied against the minimum period term.

Customers that subscribe to Fixed Period Service may upgrade a portion of a service or services to an equivalent or greater capacity SHNS, as set forth in Section 15, following. In addition, the customer may retain and combine a portion of the existing service or services into a new service. Discontinuance charges will not apply provided all of the following conditions are met:

- The SHNS and new DS3 Service are provided by the Company,
- The order for the disconnect of the existing Fixed Period Service or Services and the order for the new connect of the SHNS and new service are received by the Company at the same time,
- The new SHNS and new DS3 Service are provided between the same customer locations as the discontinued service or services,
- The new SHNS and new DS3 Service have a total voice equivalent capacity equal to or greater than the total voice equivalent capacity of the service or services being discontinued, and
- The new SHNS Fixed Period Rate Plan meets or exceeds the months remaining on the longest existing DS3 Fixed Period Rate Plan being discontinued (exception: after January 27, 1997 new SHNS customers may not subscribe to SHNS 120 Month Fixed Period Rate Plan; DS3 Service customers with 120 Month Fixed Period Rate Plans must subscribe to SHNS 60 Month Fixed Period Rate Plan), and meets or exceeds 60 months and creates a Net Increase in Billed Revenue. In addition, the new DS3 Service Fixed Period Rate Plan meets or exceeds the longest DS3 Fixed Period Rate Plan being discontinued.

For service upgrades, the nonrecurring charges set forth in Section 15, following, will apply to the portion of the service being upgraded. Nonrecurring charges apply for the new DS3 Service. New minimum service periods apply to all upgrades.
